Diakon Wilderness Center
Search and Seizure Policy and Procedure

3800.32i - A child has the right to be protected from unreasonable search and seizure. Any facility may conduct search and seizure procedures subject to reasonable facility policy.

Policy: The Diakon Wilderness Center will provide an environment that is safe and secure for youth and staff.

Purpose: Establish a criteria and procedure for reasonable search and seizure of youth coming to the Wilderness Center campus.

Criteria:
- Reasonable suspicion of contraband, defined as items contrary to the health, safety, or welfare of youth or staff, being brought onto the campus.
- Reasonable suspicion of theft from the facility, other youth, or stemming from community involvement.
- Youth routinely outside Diakon Wilderness Center staff care, custody and control.

A search will be conducted of the personal belongings of any youth arriving onto the campus entering into the Weekend Alternative Program, Center Point Day Program and/or the Wilderness Challenge program. These routine searches are conducted on Friday check in time in the Weekend Alternative Program and M-F check in times in the Center Point Day Treatment Program. Searches will be conducted of all items carried in, to include bags, outerwear, shoes, hats. Students will be scanned with metal wand scans to ensure they are not concealing weapons that may put other students at risk. Students are also required to turn out pockets and are visually scanned for contraband.

A search may be conducted of a youth or youths under reasonable suspicion of the above criteria while youth is engaged in programming in a Diakon Wilderness Center program. This search will follow the above guidelines. A search may be conducted of the sleeping area of youth under reasonable suspicion of the above criteria.

If more intrusive searches are warranted, these searches will be subjected to parental and county notification prior to the search. Approval must also be given by the Administrator of Diakon Youth Services prior to a more intrusive search being conducted. If reasonable suspicion exists that a student is in immediate possession of dangerous or illegal contraband, and this is creating a danger to the health, safety, or welfare of youth or staff, immediate contact will be made to outside authorities (State Police) prior to any search being conducted internally. A report will be made with the state police and all required documentation will be completed following the resolution of the incident.

I. Standard: The Diakon Wilderness Center will coordinate transportation for medical services in case of an emergency, based on the necessity of the situation and condition of an injured client, staff member, visitor or volunteer.

II. Operating Procedure: When facing a medical emergency requiring the transport of an injured individual, the following procedures will be followed. In the case of incidents in a wilderness environment, time may become a crucial factor in the response needed to treat an injured individual, therefore a direct care staff is required to use their “best judgment” in guaranteeing the well-being of all concerned and in critical situations should contact emergency support (911) directly prior to contacting supervisor.

- Contact the program director or supervisory staff and explain the situation. The program director/supervisory staff will either determine an evacuation/emergency transport to be conducted by Diakon staff or coordinate professional assistance from outside agency.

- Diakon staff are responsible for supervising all students in their care and must maintain relevant staff-to-student ratios.
- Supervisory staff will create a log of all events, contacts and responses concerning the injured individual and the care and response being provided. Field staff are responsible for maintaining and turning in all SOAP notes to their supervisor for incident reports.
- Medical Insurance, Medical History, and Consent forms will be accessed from the students file and arrangements will be made to have copies of this information available to outside professionals giving treatment.
- Insurance information, court orders, and consents to treat will be provided to care providers for payment reasons.
- All students in the care of the Diakon Wilderness Center will be accompanied by staff during treatment/assessments
- All emergency contacts will be made by supervisory staff to include county emergency on call workers and youth’s listed emergency contact. Arrangements will be made to maintain open contact with family members and transition care, if necessary, to youth’s primary care giver.
- Documents/Items which must accompany student in the event of an emergency transport include the following:
  1. Student Emergency Packets
  2. All student specific (prescribed) medication/Medication log.
- If patient receives medical care, return any doctors orders, medication, instructions and paper work to the Program Director / Supervisory staff. All medical paperwork must be copied for students records and originals transferred to patients primary care giver.

III. Medical Protocols
- Emergency treatment of medical conditions and injuries will follow protocols provided in Wilderness Medicine Training Center’s First Responder Training, Wilderness First Aid Training (also covered through similar WFA/WFR certification trainings through WMA, SOLO, WMI & RMI) & Basic First Aid and CPR protocols provided by American Heart Association (also covered through similar trainings provided by Red Cross).

For example, we may use medical information to review our treatment and services and to evaluate the performance of our staff in caring for you. We may also combine medical information about many residents, clients or other persons receiving our services to decide what additional services we should offer. We may disclose information to doctors, nurses and other facility personnel for review and learning purposes.

IV. YOUR RIGHTS REGARDING MEDICAL INFORMATION ABOUT YOU

You have the following rights regarding medical information we maintain about you:

A. Right to request restrictions.

You have the right to request that we restrict the uses or disclosures of your medical information to carry out treatment, payment, or health care operations. You also have the right to request that we restrict the uses or disclosures we make to: (a) a family member, other relative, a close personal friend or any other person identified by you; or (b) to public or private entities for disaster relief efforts. For example, you could ask that we not disclose medical information about you to your brother or sister. We are not required to agree to any requested restriction, but will tell you in advance if we cannot comply. However, if we do agree, we will follow that restriction unless the information is needed to provide you with emergency treatment.

You must submit your limitation or restriction request in writing to your caseworker, counselor, or facility administrator. In your request, you must tell us (1) what information you would like to limit or restrict, (2) whether you wish to limit the use or disclosure, or both, and (3) to whom you would like the limits to apply, for example, disclosures to your spouse. Your request must also specify your name and contact information as well as the facility or program in which you are a patient, resident, client or otherwise receiving our services in order for us to efficiently address your request.

We may terminate your restriction if: (a) you agree or request the termination in writing; (b) you orally agree to the termination; or (c) if we inform you that we are terminating our agreement to your restriction, except that such termination will only be effective for your medical information that is created or received after you receive our notice of termination.

B. Right to receive confidential communications.

We will accommodate reasonable requests to receive communications about your medical information from us by alternative means or at alternative locations. For example, you may ask that we only contact you by mail or at work. We will not require you to tell us why you are asking for the confidential communications. If you want to request confidential communications, you must make your request in writing to your caseworker, counselor or facility administrator. Your request must also specify your name and contact information as well as the facility or program in which you are a patient, resident, client or otherwise receiving our services in order for us to efficiently address your request.
C. Right to inspect and copy protected health information.

With a few very limited exceptions, you have the right to inspect and obtain a copy of your medical information. To inspect or copy your medical information, you must submit your request in writing to your caseworker, counselor or facility administrator. Your request should specifically state what medical information you want to inspect or copy. Your request must also specify your name and contact information as well as the facility or program in which you are a patient, resident, client or otherwise receiving services in order for us to efficiently address your request. We will ordinarily act on your request within 30 days of our receipt of your request. In the event that state or other federal law requires us to act on your request within a shorter time frame, we will comply with such law. We may charge a fee for the costs of copying, mailing or other supplies associated with your request and will tell you the fee amount in advance.

We may deny your request to inspect and copy in limited circumstances. If you are denied access to your medical information, you may submit a written request that such denial be reviewed to the Privacy/Contact Officer at the address indicated on the first page of this notice. In certain circumstances you will not be granted a review of a denial. Otherwise, your denial of access will be reviewed by a licensed health care professional designated by us who did not participate in the original decision to deny access. We will ordinarily act on your request for review within 30 days.

D. Right to amend protected health information.

You have the right to request an amendment to your medical information for as long as the information is kept by or for us. Your request must be submitted in writing to the Privacy/Contact Officer and must specifically state your reason or reasons for the amendment. Your request must also specify your name and contact information as well as the facility or program in which you are a patient, resident, client or otherwise receiving our services in order for us to efficiently address your request. We will ordinarily act on your amendment request within 60 days after our receipt of your request.

We may deny your request to amend medical information if we determine that the information: (1) was not created by us; (2) is not part of the medical information maintained by us; (3) would not be available for you to inspect or copy; or (4) is accurate and complete.

If we grant the request, we will inform you of such acceptance in writing. We will make the appropriate amendment to your medical information and we will request that you identify and agree that we may notify all relevant persons with whom the amendment should be shared: (a) individuals that you have identified as having medical information about you and (b) business associates that we know have your medical information that is the subject of the amendment.

Your request must state the time period for which you would like an accounting which may not be longer than 6 years and cannot include dates before April 14, 2003. Your first accounting request within any 12-month period will be provided to you free of charge. For additional accounting lists, we may charge you for the costs of providing the list. We will notify you of the cost involved and you may choose to withdraw or modify your request at that time before any costs are incurred.

We will ordinarily act on your accounting request within 60 days of your request. We are permitted to extend our response time for a period of up to 30 days if we notify you of the extension. We may temporarily suspend your right to receive an accounting of disclosures of your medical information, if required to do so by law.
