

# Children's Review Team

## Diakon Behavioral Health Services

### Who we serve

We support families with children and teens ages 5 through 21 who may be at risk of out-of-home placement due to serious emotional disorders. If you're working with a youth at home, in school, or in the community, you can make a referral to us to assist the family in making the right connection to services.

### What is the Children's Review Team?

The Children's Review Team (CRT) serves as a collaborative liaison within Chester County, connecting youth experiencing serious emotional disturbances with appropriate community-based resources. Through coordination within the System of Care model, CRT works to ensure that services are integrated, accessible, and effective—helping to prevent unnecessary out-of-home placements and supporting youth in remaining safely within their homes and communities.

**Our goal is to support the whole family  
with services that make a difference.**
